

Vision Care Donations

December 23, Joseph Smith's birthday is the appropriate day to make our family's donation. In honor of the First Vision that occurred 200 years ago, today our Smith Family Association donated \$10,000 to Vision Care. Sharon Eubank, the director of Latter-day Saint Charities, said, "The donation by the Smith Family will do many, many good things. Your choice to help "restore vision" has its themes in everything your family contributes to the world. I extend a very deep and sincere thank you."

We thank the family for your generosity, in particular, we thank the hundreds who participated in our Go to the Grove activities. The money raised was not all from big donations, but mostly from the individual registrations. We also want to thank the anonymous family for donating the prize money for the activities.
